Dhaka, Bangladesh | Email: 23-54405-3@student.aiub.edu

## ACADEMIC PROFILE & OBJECTIVE

Curious and analytical Computer Science and Engineering undergraduate (10th semester as of October 2026) at AIUB with a strong foundation in mathematics, Data Structures, digital logic, and embedded systems. Actively exploring image-based machine learning and deep learning research while developing modern web applications and preparing for technology industry internship opportunities.

## EDUCATION

**American International University-Bangladesh (AIUB)** 2023 – Present (10th Semester, Oct 2026)

B.Sc. in Computer Science and Engineering (CSE) • Completed Data Structures & 6 Mathematics Courses

**Dhaka Commerce College** 2020 – 2022

Higher Secondary Certificate (HSC) • Result: GPA 5.00

**Monipur High School and College** 2010 – 2020

Secondary School Certificate (SSC, Bangla Version) • Result: GPA 4.89

## ACADEMIC & TECHNICAL PROJECTS

**Smart Security System (Embedded Systems / Microcontrollers)**

• Explored keypad-based access control (4x4 keypad), ESP32 web password interface concept, OLED display, and LED indicators
• Implementation Note: Used push-switch fallback in simulation where ESP32/Wi-Fi was unavailable and troubleshot OLED hardw

**Automated Bell System (Digital Logic / Sequential Systems)**

• Designed sequential digital logic utilizing pulse generation, counter inputs, sequential outputs, and time tracking.

**Personal Portfolio Website (Frontend Web Development / 3D Web Design — In Development)**

• MVC-structured portfolio built with HTML, CSS, JavaScript (data.js), Three.js 3D interactive lamp scene, and Node.js admin back

## ACADEMIC RESEARCH EXPLORATION

**Hair-Loss Severity Assessment Using Deep Learning (Status: Topic Exploration / Proposed Research)**

• Exploring scalp image analysis, dataset preprocessing, and ML/DL model comparison against expert-annotated labels.
• Scope Note: Focused on visual severity stage assessment; scalp images alone do not diagnose biological etiology.

## SKILLS & TECHNICAL LEARNING AREAS

• Academic & Analytical: Mathematics (6 courses), Analytical Thinking, Problem-Solving, Data Structures, Research Exploration
• Technical & Tools: HTML, CSS, JavaScript, Web Development, Embedded Systems, Digital Logic, Computer Vision/DL Explorati

## CERTIFICATIONS, BADGES & ACHIEVEMENTS

• Training & Certificates: Cisco Cybersecurity Badge | HP LIFE — Business Email | HP LIFE — AI Beginners | Effective Present
• Coding & Extracurricular: CodeChef Bronze Achievement | CodeChef Streak Badges | Petaract DCC Best Member Award
